Thus if you respect these instructions you ensure human health and environmental protection.

## **USER GUIDE**

Please read this User Guide carefully in order to get the very best results from your telephone.

## SETTING UP

### 1 – CONNECTING TELEPHONE

The plug at the end of the lead should be connected to the telephone socket.

*Voltages present on the telecommunication network Are classified TNV-3 (Telecommunication Network Voltage) according to the EN60950 standard.*

### 2 – RINGER SETTING

The rotary volume control can be used to adjust the ringer level. Turn anti-clockwise to increase and clockwise to reduce the ringer volume. Turning to the extreme clockwise position switches the ringer OFF.

### 3 – WALL MOUNTING

To wall-mount your telephone, pull out the clip to the wall mounting position (located in the base unit, just below the ear piece). This will ensure that the handset stays firmly in position. Make 2 holes in the wall 135mm apart, insert the wall plugs and the wall mounting screws. The screws should protrude from wall by 10 mm. Place the phone onto the screw-heads and slide down to secure.

135mm

## USING THE TELEPHONE:

### 1 - ANSWERING INCOMING CALLS

When an incoming call is received, the telephone will ring. To answer the call lift the handset and speak.

### 2- RECEIVER VOLUME SWITCH

The receiver volume switch  can be used to **Normal** or increase the receiving level to **High**.

### 3- MAKING A CALL

Lift the handset, await the dial tone and dial the required number using the push button keypad. On completion of the call, carefully replace the handset in the cradle.

### 4- LAST NUMBER REDIAL

If the number you have dialled is engaged or if you want to repeat the call to the number you dialled previously, lift the handset, await dial tone and press the  (Redial) button. The previously dialled number will be AUTOMATICALLY RE-DIALLED.

### 5- R, \* & # BUTTONS

These are used with new services provided on digital exchanges. For details contact your network operator.
