

QUICK USER GUIDE

En

!!! Please refer to our website: www.geemarc.com for an up to date user guide, as there may be important updates and changes you need to be aware of !!!

Congratulations on purchasing your Geemarc AMPLIDECT COMBI-PHOTO 295 telephone. This telephone offers all the advantages of cordless technology (compliant with Digitally Enhanced Cordless Telecommunications-DECT standard) together with an easy to see big button keypad, ideal for those who suffer with poor sight. This telephone is also hearing aid compatible. It is important that you read the instructions below in order to use your Geemarc telephone to its full potential.

CAUTION: Use only the battery pack provided. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Do not subject the battery pack to extreme high or low temperatures, or low air pressure at high altitude during use, storage or transportation. Disposal of the battery pack into fire or a hot oven, or mechanically crushing or cutting or the battery can result in an explosion. Subjecting the battery pack to an extremely high temperature environment, or extremely low air pressure can result in an explosion, or leakage of flammable liquid or gas.

Normal operating temperature for the product(e.g.0°C~40°C).

Use only the adapters and battery pack listed below.

PACKAGE CONTENTS

1 Telephone base, 1 Corded handset, 1 cordless handset, 2 Power adapter, 1 Charger, 1 Telephone line cord, 1 NiMH Battery pack, 1 Quick user guide.

INSTALLATION

Connecting the telephone

Connect the telephone line cord to the telephone line socket (A) and to the telephone wall socket (B).

Connect the lead from the power adapter to the small round socket on the base (C), then plug-in the power adapter to a mains outlet socket (D).

Note: Only use the power adapters supplied with the phone.

1

Connect the battery pack

Remove handset battery cover. Connect the short lead from the battery pack into the socket inside the battery compartment.

Carefully fit the battery pack as shown.

Align the battery cover flat against the battery compartment, and then slide it towards the center of the handset until it clicks into place.

Charging the handset battery pack

To charge the battery pack, place the handset on the charger.

Note : Charge the batteries for at least 16 hours when charging for the first time.

USING THE HANDSET

Booster mode

During a call, when in boost mode, you can increase the listening volume up to 30dB amplification.

- Press and Hold (2 seconds) the VOL+ button to activate Boost mode (LED will be steady blue).
- Press and hold again the VOL+ button to cancel Boost mode. (LED will go Off).

Storing a number to a picture memory button

On the base:

In idle mode: Dial your phone number and Press and hold the memory key until to hear a beep.

Using a picture memory

To make a call, remove the handset from the Pod and press any of these to dial a pre-stored number stored in the PHOTO and Memory keys of the AMPLIDECT COMBI-PHOTO 295. The **[R/TALK]** button (21) shows GREEN when the handset is in earpiece mode.

How to Receive an Incoming Call

If the **handset is on the pod**: Remove the handset from the pod, the call will automatically connect through the handset, and the **[R/TALK]** button (21) will show GREEN.

If the **handset not on the pod**: Press the **[R/TALK]** button (21) to take the call. The **[R/TALK]** button (21) will show GREEN.

To finish the call, press the **red [OFF]** button, or place the handset back onto the pod.

How to Adjust the Handset Volume

During a call, you can increase or decrease the sound level of the handset earpiece by pressing the **[VOL+]** (28) and **[VOL-]** (29) buttons at the side of the handset.

[VOL +] (28) increases the volume.

[VOL -] (29) decreases the volume.

REGISTRATION & DE-REGISTRATION

Note: Handset and base station are pre-registered.

Up to five handsets can be registered to a single base station. In the case of re-registration, the PIN code is **0000**.

Registration a photo handset

First place the base station of the AMPLIDECT COMBI 295 in Registration mode in select in press Menu RIGISTRATION then press **MENU/OK** .

PhotoDECT295 handset: Place the handset in the pod. The Charging / Booster / Registration LED (19) flashes RED to show registration in progress.

Registration can take up to 60 seconds. A confirmation tone is heard when registration is complete.

Repeat the procedure above if the handset remains unregistered.

Once charging and registration is complete, it will be possible to use the PhotoDECT295 to dial a pre-set number using one of its four photo speed dial keys, and to receive phone calls.

Note: if the handset doesn't arrive un registered, please follow this procedure:

Handset: Quickly press **[VOL+] [SPK] [VOL-] [SPK] [VOL+] [VOL-] [SPK]** in idle mode, then HS will have a "Bi,Bi" tone.

ANSWERING MACHINE

The AMPLIDECT COMBI-PHOTO 295 includes a telephone answering machine (TAM) to record messages (when it is on) on unanswered calls. It can store up to 59 messages (total recording time available is 15 minutes). As well as recording incoming messages, you can record memos for other users of your phone.

Press  **ANS ON/OFF** to switch the answering machine ON or OFF

Remote operations

You can access the TAM remotely from another tone-dialing phone to switch the TAM on and off and to access messages.

1. Place a call from a tone-dialing phone.
2. When the answering machine answers the call and starts playing OGM, press .
3. Enter the 4-digit Remote Access PIN (factory default PIN is **0000**). Refer to the main user guide on how to set up your own remote access PIN.
4. Press the following keys to carry out your desired function.

A	Functions	
	While message is not playing	While message is playing
2		Delete the current message playback
4		Repeat playing the current message from the beginning. Press twice to skip backward to the previous message.
5	Play the message	
6		Skip forward to play the next message
7	Turn on the answering machine	
8		Stop the current message playback
9	Turn off the answering machine	
*	Enter the 4-digit remote access PIN	

NOTE:

- When the TAM memory is full (and answer mode is in **ANS & RECORD**), the answer mode will automatically change to **ANSWER ONLY** mode.
- The TAM will automatically revert to **ANS & RECORD** mode, once some messages are deleted.
- It is not possible to delete new (unplayed) messages.

MAINTENANCE

Clean the surface of the housing with a soft, fluff-free cloth. Do not use any cleaning agents or solvents.
