

Examples of use :

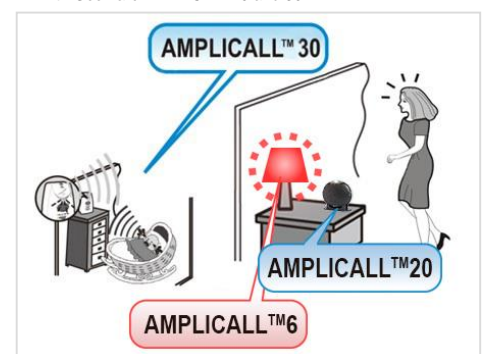

With Geemarc AMPLICALL20 and 40

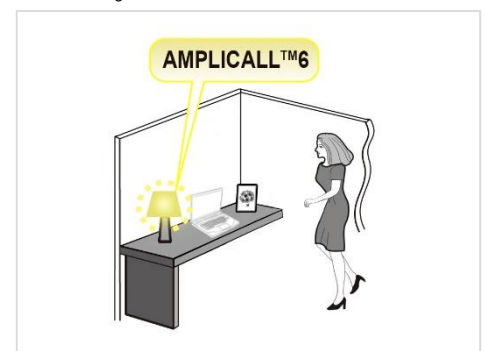

With Geemarc AMPLICALL1 and 20

With Geemarc AMPLICALL20 and 30

Standard light mode

DESCRIPTION

The AMPLICALL 6 is a bulb compatible with our AC16/AC20/AC30 and AC40 systems.

This bulb can be used for multiple functions. Depending on the product it will be connected to, it will warn you visually:

- when you receive a phone call
- when someone rings your doorbell or uses your intercom
- when your baby cries in the bedroom, etc...

A remote control (15m range) supplied with the bulb will allow you to use it as a standard light but remotely controlled. Two brightness levels are available: low and regular mode.

CHARACTERISTICS

- ➔ Radio technology : 433 MHz
- ➔ High performance LED
- ➔ Supplied with a radio remote control which allows to :
 - switch the bulb ON/OFF
 - adjust the brightness level (2 levels)
