

AMPLIDECT™ COMBI 295

QUICK START USER GUIDE

En

!!! Please refer to our website: www.geemarc.com for an up to date user guide, as there may be important updates and changes you need to be aware of !!!

Congratulations on purchasing your Geemarc AMPLIDECT COMBI 295 telephone. This telephone offers all the advantages of cordless technology (compliant with Digitally Enhanced Cordless Telecommunications-DECT standard) together with an easy to see big button keypad, ideal for those who with visual impairment. This telephone is hearing aid compatible. It is important that you read the instructions below in order to use your Geemarc telephone to its full potential.

CAUTION: Use only the battery pack provided. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Do not subject the battery pack to extreme high or low temperatures, or low air pressure at high altitude during use, storage or transportation. Disposal of the battery pack into fire or a hot oven, or mechanically crushing or cutting or the battery can result in an explosion. Subjecting the battery pack to an extremely high temperature environment, or extremely low air pressure can result in an explosion, or leakage of flammable liquid or gas.

Normal operating temperature for the product(e.g.0°C~40°C).

Use only the adapters and battery pack listed below.

PACKAGE CONTENTS

1 Telephone base, 1 Corded handset, 1 cordless handset, 2 Power adapter, 1 Charger, 1 Telephone line cord, 1 NiMh Battery pack, 1 Quick user guide.

INSTALLATION

Connecting the telephone

Connect the telephone line cord to the telephone line socket (A) and to the telephone wall socket (B).

Connect the lead from the power adapter to the small round socket on the base (C), then plug-in the power adapter to a mains outlet socket (D).

Note: Only use the power adapters supplied with the phone.

Connect the battery pack

Remove handset battery cover. Connect the short lead from the battery pack into the socket inside the battery compartment. Carefully fit the battery pack as shown. Align the battery cover flat against the battery compartment, and then slide it towards the center of the handset until it clicks into place.

Charge the batteries

Charge the batteries for at least 16 hours when charging for the first time.

ANSWERING FUNCTION

The AMPLIDECT COMBI 295 includes a telephone answering machine (TAM) to record messages (when it is on) on unanswered calls. It can store up to 59 messages (total recording time available is 15 minutes). As well as recording incoming messages, you can record memos for other users of your phone.

Press **☒** **ANS ON/OFF** to switch the answering machine ON or OFF

REMOTE OPERATIONS

You can access the TAM remotely from another tone-dialling phone to switch the TAM on and off and to access messages.

1. Place a call from a tone-dialing phone.
2. When the answering machine answers the call and starts playing OGM, press **☒**.
3. Enter the 4-digit Remote Access PIN (factory default PIN is **0000**). Refer to the main user guide on how to set up your own remote access PIN.
4. Press the following keys to carry out your desired function.

A	Functions
While message is not playing	While message is playing
2	Delete the current message playback
4	Repeat playing the current message from the beginning. Press twice to skip backward to the previous message.
5	Play the message
6	Skip forward to play the next message
7	Turn on the answering machine
8	Stop the current message playback
9	Turn off the answering machine
*	Enter the 4-digit remote access PIN

NOTE:

When the TAM memory is full (and answer mode is in ANS & RECORD), the answer mode will automatically change to ANSWER ONLY mode.

The TAM will automatically revert to ANS & RECORD mode, once some messages are deleted.

It is not possible to delete new (unplayed) messages.

MAINTENANCE

Clean the surface of the housing with a soft, fluff-free cloth. Do not use any cleaning agents or solvents.
